

Visuals

The inside of the Micro-Cosmos dome has 4 different visuals to create a soothing environment. The visuals have been selected for their scientifically proven positive effects on people's rest and well-being.

Forrest

Green forest colors have been proven to have a calming effect and give a familiar feeling. The blurriness of the image creates a soothing atmosphere that supports the patient's state of mind.

Northern Lights

The soft blue tones of the northern lights against a dark sky have a calming effect and appeal to the imagination. The spatial feeling reassures the patient and at the same time provides a secure closed environment for the patient.

Blue Sky Beach

The beach is one of the most universally effective image in creating tranquility. The strong connection with nature, water and air arouses calming thoughts and feelings.

Pastel Sunset

The harmonious color palette of the pastel sky also has the softening and spacious feeling due to the low saturation of the colors and the shapes of the clouds.

We can supply one or more of these visuals. Please let us know which visuals are desired.
